

SHRI RAM GLOBAL SCHOOL, GREATER NOIDA WEST

Circular No: 24 / Date: 25.09.2020

Grade : Nursery & KG

Dear Parent,

Greetings from SRGSGN!

We sincerely hope that you are safe and are staying indoors. Had we been living in normal circumstances; things would have been different. But as we struggle to come to terms with these circumstances, where a pandemic of this magnitude has derailed the best of planning in the whole world, we are looking for ways and means to make the learning the most effective manner.

As you may know, you have two sides of a very complex brain. And these two sides each have a distinct personality. The left brain is the “reasoning” brain. It controls the conscious mind, logic and reasoning abilities. It processes information systematically, but slowly and in small quantity. On the other hand, the right brain is the “visualisation” brain. It controls the subconscious mind, imaging abilities and creativity. It has the powerful abilities to process massive amount of information quickly, and has great memory retention ability.

In this highly competitive world, would left brain skills suffice - not really! Future requires an equally developed creative/imaginative aspect, high problem solving skills. With well developed left and right brain, children can excel better in academics, as well as other interests like sports, music or arts.

It has been found out that the right hemisphere of a child's brain develops fastest from birth up to **six years of age**. It is during this crucial period that right brain training is at its most effective.

With this intent, we have planned to start the RBD (Right Brain Development) classes from **1st Oct, 2020 once in a week**. Your ward's schedule will be shared by the class teacher.

At SRGS, we believe in conducting the most effective lessons to stimulate and develop children's right brain. We focus both on the quality of our lesson activities and how our teachers deliver them in the most engaging yet effective way.

At the end, I would like to thank you parents for your continued support. Your words of appreciation have helped us stay motivated during these challenging times. We have realized the value of technology as an important tool to stay connected with our students and will make constructive use of it in future too.

Warm regards,

Geeta Varshneya
Executive Principal
